2023

Spring | Summer | Autumn | Winter

DEAR FRIENDS

First, I would like to thank you for your preference for TH Clothes Family. It is with great satisfaction that I observe the continuous brand growth over the years. The constancy of the values that have guided us, our commitment to the elegance, to the details, and the certified quality, has proved to be a winning strategy that we are very proud of. TH Clothes has been building a path full of successes and its recognition in European markets is already a reality, to such an extent, that we are currently an unavoidable player in the sector.

Like our ancestors, we are committed to conquering the world, leveraged by our perseverance, resilience and conviction that what we are building is something that fully reflects the Portuguese DNA.

For 2023, the brand's strategy is to assume a more premium positioning and a clear commitment to new communication channels, namely through the upgrade of the website and the creation of a mobile application, which will bring us even closer to our customers.

This year we also want to reinforce our commitment to reducing the use of plastic, so we decided to create an internal project for the reuse/reconversion of all shipping material, which we called ReBox. We believe that this responsible investment in biodegradable materials such as cardboard makes more and more sense and will certainly contribute to a surely more sustainable future.

I say goodbye, thanking you again for your preference for TH Clothes family and I wish you a year full of health and success.

Mauro Silva
CEO

TH CLOTHES
2023

THIS IS OUR WORLD

TH Clothes is a brand owned by Organizações Biscana, whose headquarters are in the central region of Portugal, more specifically in Batalha. Having started its journey in 2006, the brand appears on the market with the aim of filling the need to supply certified quality products at a fair price. The years that followed, namely between 2010 and 2015, translated into an exponential growth of the brand in the Portuguese market, as a result of the clear commitment to the development of new products with added value for its customers, and consequently, the internationalization of the brand, which became represented in 12 European countries.

2016 was a year of great importance in terms of innovation and new products development. It was in this period that the brand reinforced its *avant-garde* positioning, with the presentation of 37 new items on the market.

In 2017, with the aim of consolidating its position in the market, TH Clothes' strategy was mainly based on three important pillars: the constant focus on innovation in terms of the development of new products, the doubling of stock, with the brand now having around 6 million items, and finally, we highlight the remarkable work of selecting potential markets and the respective expansion of its distribution, which currently represents sales to 27 countries.

In 2018, the brand once again reinforces its permanent stock, and expands its range of colors, introducing five new items considered essential in the promotional market. That same year, it became a member of Fair Wear Foundation, an international entity that certifies and attests to the brand's collaboration in the constant improvement of working conditions in the factories where its products are produced.

2019 brought a revolution in terms of its color palette, with the brand introducing ten options in the main items of its most important ranges. In the same year, due to market demands, some premium items were also presented, thus reinforcing the archetype of quality and modernism characteristic of the brand.

In 2020, TH Clothes further expanded its range of products, presenting to the market a line of workwear, which reflected the perfect alliance between the quality and durability of materials, with a touch of unique design characteristic of the brand. In the same year, the global pandemic of COVID-19 dictated a new reality and created new needs, and the brand responded with the creation of THC Atlântida and THC Atlântida Kids, a customizable mask with the CITEVE level III seal of approval for protection society against COVID-19.

In 2021, the brand once again continues its innovative tradition and launches the first sneaker on the market with a removable and customizable patch. It was also the first year of the Less Plastic Initiative, an action that aims to demonstrate the brand's commitment to significantly reducing plastic consumption.

2022 brings with it continuity, both in terms of investing in new products and the introduction of new colors, however, what stands out most this year was the effort to develop substantially more efficient logistics, with the modernization of the layout of the main warehouse in Portugal and consequently with the introduction of a new intelligent software, which made possible a faster and more assertive dispatch of all its products. In yet another field, and in order to complement the brand's approach to customers, a new website was presented, with a more modern and intuitive design.

NVNO ALVARES PEREIRA

THIS IS OUR CULTURE

International ACCORD for Health and Safety in the Textile and Garment Industry

In order to ensure working conditions for people in the ready-made garments industry and to avoid incidents in the countries where we purchase our products, TH Clothes considered essential to become a member of the International Health and Safety Agreement in Textile and Clothing Industry (International Agreement).

This agreement is legally binding between clothing brands and unions, with the aim of making textile factories safer. TH Clothes thus takes extreme care with the working conditions of all those who contribute to the production of its products, so it provides all the guidelines so that they are safe throughout the production process. In this way, TH Clothes, in partnership with Bangladesh suppliers, ensures that all measures are being taken to build a better future for the clothing business.

TH Clothes is a member of FAIR WEAR fairwear.org

TH Clothes becomes a member of the Fair Wear Foundation. This commitment reflects the brand's willingness to respect the code of labor practices based on internationally recognized standards, namely with regard to the following pillars free choice of work, non-discrimination in employment, non-existence of child labor, freedom of association and collective bargaining, fair wages, reasonable working hours, health and safety, and legally recognized contractual relationships.

IMAGINED & DESIGNED IN PORTUGAL

The DNA of the Portuguese people is widely recognized in the textile world. Its success story dates back to the 16th century with the construction of the sails used by Portuguese ships. Since that time, the quality of construction and the design of Portuguese brands is appreciated all over the world, so these were the bases that contributed to the fact that, nowadays, Portuguese textiles mean flexibility, speed, consolidated knowledge and innovation.
Based on these premises, TH Clothes continues to invest heavily in the quality of its products and in the expansion of its ranges, always with the vision of a future marked by differentiation and added value at the most diverse levels.

OEKO TEX® STANDARD 100

TH Clothes has always taken on a huge commitment with the quality of its products. Proof of this is the obtaining of the Standard 100 by Oeko-Tex certificate, which aims to guarantee the use of regulated substances free from health hazards. Obtaining this certificate is a worldwide synonym that ensures responsible textile manufacturing, and consequently, represents a guarantee for industry, commerce and consumers.

Today our vision is a reality. The Better Cotton Initiative (BCI), or simply Better Cotton, is the largest cotton sustainability program in the world. In just over a decade, BCI has managed to convince stakeholders that span the sector to be it's partners, namely, farmers, ginners, spinners, suppliers, manufacturers, brand owners, retailers, adding now more than 2,300 members in the Better Cotton network.

RE-BOX

We are currently experiencing a worldwide appeal for a more active and intense awareness of packaging, so, following its plastic reduction process, the brand has increasingly invested in the use of biodegradable materials, such as cardboard. This time, a program was created to reuse all shipping packaging, in order to minimize waste and ensure responsible use.

LESS PLASTIC! THIS IS NOT JUST AN ACTION, IT'S A POSITION!

TH Clothes takes environmental responsibility very seriously, and It`s precisely for this reason, and committed to reducing plastic consumption in our transactions, that we have decided to reduce drastically this material in most of our packaging. In addition to this measure, we have eliminated plastic straps in our boxes, which is another step in strengthening our commitment to environmental responsibility.

POLO SHIRTS

Polo shirts have been constantly evolving since their invention in the 19th century. In addition to its common use linked to sports, polo shirts are gaining more and more fans in the promotional market. Being a product of excellence, our polo shirts are a unique and distinct product that go beyond refinement, managing to reconcile elements such as quality, durability, and detailed finishes.

The Adam and Eve polo shirts were named following the principle that they would be the first two pieces to mark the future growth of the TH Clothes brand. Their “offspring” is now over 50 articles.

Accessories are the detail that makes all the difference, and the essential part of a good look. TH Clothes has selected a set of articles created on purpose for a perfect harmony with all our products.

RODRIGO

Unisex footwear

- Main fabric - microfiber
- Rubber outsole
- Customizable white sneakers with different colors patches (customization is achived by changing patches through the velcro system)
- Each pair of sneaker comes with 1 pair of patches in a color of your choice
- Sneakers with laces
- Decorative stitching around the heel area
- 3 perforations in the inner area of the shoe for better breathability
- Possible patch decoration techniques: pad printing/ tampography, hot stamping debossing with low relief, high frequency and printing, screen printing, embroidery, flex and direct/digital UV printing.
